DESIGN MAKES THE DIFFERENCE

nickson's line of retail exhaust accessories continues to reinforce the image of quality and attention to detail that goes into all of our products. With sharp, eye-catching high-contrast red and black packaging and realistic, digitally generated product shots, our retail accessories are sure to catch the eye of potential customers. And the multi-lingual product description and sizing is sure to garner the sales

of English and Spanish speaking customers alike. Nickson is constantly transforming ideas into usable products which are designed with the utmost attention to quality and purpose. By continuing to focus on application, quality, control, durability, and ease of installation, Nickson Industries, Inc. is the source for all your retail exhaust accessories.

MUFFLER CLAMPS

These heavy duty clamps feature an 11 gauge saddle with reinforcing ribs, and a 3/8" u-bolt with flange nuts. They provide the do-it-yourselfer with the same high quality, leak-free clamps that the professional installers use.

PREMIUM HEAVY DUTY STYLE

PREMIUM HDGM STYLE

The premium HDGM style heavy duty clamp comes with a 3/8" u-bolt and zinc plated flange nuts. The unique HDGM saddle has the popular flat-bottom, with drawn cup ends and round bolt holes for greater nut bearing surface. This product offers superior strength and higher clamping pressures than outdated open channel, or conventional guillotine type designs.

MUFFLER CLAMPS

HEAVY DUTY TRUCK CLAMPS

Nickson offers a full range of flat bottom heavy duty clamps with a 3/8" u-bolt and zinc plated flange nuts. The saddle design gives a positive seal without cutting the pipe, while the heavier gauge steel and narrow legs provide additional rigidity and durability. This same design is offered with the addition of welded tabs on the legs for maximum strength.

FLEXIBLE EXHAUST CONNECTORS

These flexible connectors are specifically designed for use on front-wheel drive vehicles where they reduce stress on ball joint connections and extend exhaust system life by absorbing engine torque. They can also replace squeaky or leaking connections where there are no load-carrying requirements. The connectors have 2-ply stainless steel bellows with a seamless, convoluted inner core designed to prevent leakage. They are available individually packed.

FLEXIBLE JOINT REPAIR

48200 2"
48214 2-1/4"

U.S. Patent # 5,683,119

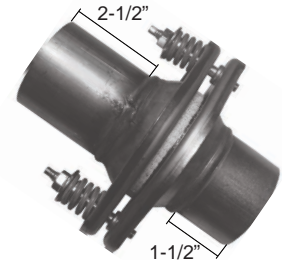

Indv. Packaged 10/Case

This patented flexible joint repair system provides near "zero leak" performance. Each size has numerous applications reducing the need for costly inventory. The base system includes flanges with a high temperature "donut-style" gasket and spring loaded fasteners pre-assembled to the correct torque.

48200E 2"

- **Completely assembled using 409 Stainless Steel**
- **Reduces backpressure**

48212 2-1/2"

Repair system is made from 304 stainless steel, the overall length is approximately 7".
